

Here is the basic naningo accented notes. This is a 2 bar repeating phrase. Get the basic pattern stuck in your head, this will become your ride or accented pattern. Play on the ride or china for bigger accents. Add in the bass drum to really accentuate this feel. Add ghost notes on the snare in measure one, then really accent the snare in measure 2 on beat 1. Feel free to add other snare ghost notes to make the pattern your own. Add the thundering double bass for this groove to pop!
